

HC948

Single Tank Water Softener

The HC 948 is our entry level water softener.

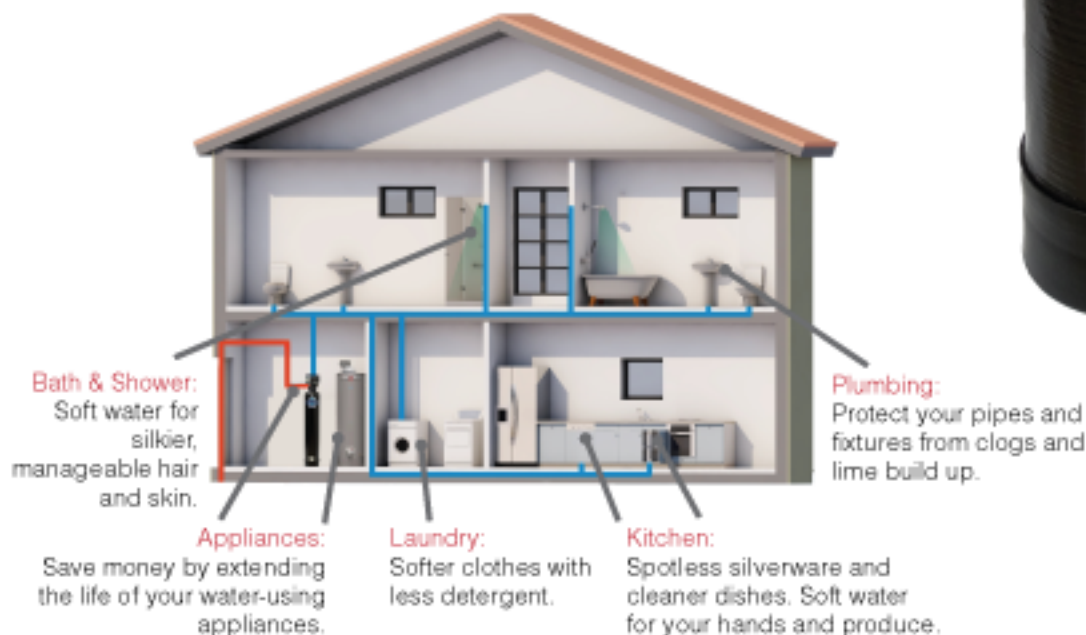

Why the HC?

1. It is your basic water hardness removal softener with electric metered operation.
2. Perfect for small families with low water consumption.
3. It has a non-corrosive, UV-resistant polymer valve with user-friendly programming.
4. The classic piston, seal, and spacer technology effectively controls service flow and regeneration.

Features:

- 20 gallons per minute flow rate
- 32,000 grain exchange capacity
- 1 cubic ft. standard resin
- 3/4" or 1" stainless bypass
- Upgrade to a 1054 for higher water consumption ability

Simple, economic hardness removal.

Commercial and residential. Leasing and financing. The best rates in town. Call us today!
